

PPI JARGON BUSTER:

At CLAHRC Wessex, it is very important to us that everything we publish is **fully accessible** to **every** patient and member of the public. We will occasionally use words or medical terms that some people will not understand, so we have created (and maintain) a 'PPI Jargon Buster' to help.

Please use the following links to access the PPI Jargon Buster, or to **anonymously** request that a term or word you do not understand, be added:
