

## Wessex Clinical Networks: Improving Dementia Diagnosis and Quality of Post Diagnostic Care project:

### *The Dementia Diagnosis Toolkit - SURVEY:*

The Dementia Diagnosis Toolkit was developed by the Wessex Clinical Network and NIHR CLAHRC Wessex (Collaborations for Leadership in Applied Health Research and Care). We aim to use the best available information and data to improve the delivery of care across Wessex. Your opinion matters to us - we would like to hear your views.

Please click on the hyperlink below to submit your responses for our project questionnaire:

- *Completing the questionnaire should take no more than ten minutes.*
- *Your responses will be anonymous.*
- *Your responses will assist the research team in refining and improving the 'Dementia Diagnosis Toolkit'.*
